

**Complete Machinery Solutions
for Disposable Paper Product
Manufacturing**

www.greentechmachine.com

About Us

Greentech Engineering is a leading manufacturer of advanced machinery for the disposable paper product industry, based in Surat, Gujarat.

Since 2015, we have been delivering high-performance machines designed for consistent output, durability, and operational efficiency. Our product range includes paper plate machines, dona (bowl) making machines, hydraulic press, Baling Press, Roll to Roll Paper Lamination Machine, Roll to Roll Paper Emboss Machine, and complete supporting equipment for end to end production.

What sets us apart is our deep understanding of manufacturing needs. We don't just supply machines, we provide complete production solutions, from raw material processing to final product output. Every machine is engineered with precision, built using high-quality components, and tested to ensure long-term reliability.

With a growing presence across India and international markets, Greentech Engineering continues to support businesses in scaling their production with confidence, efficiency, and quality.

Our Mission & Vision

Mission

To deliver reliable, high performance machinery that empowers manufacturers to increase productivity, reduce operational costs, and build sustainable businesses in the disposable paper product industry.

Vision

To become a globally trusted brand in paper product machinery by continuously innovating, improving technology, and setting new standards in quality, performance, and customer satisfaction.

Paper**

Our Products

Paper Dona Making Machine

Double Die Dona / Thali Machine

GT-ED04

(Fully Automatic
Hydraulic)

Production :
2100 Dona / 950 Thali / Hr

Electricity Consumption :
2 To 2.5 Units/Hr.

Dimension :
4.2ft (L) x 2.5ft (W) x 5.5ft (H)

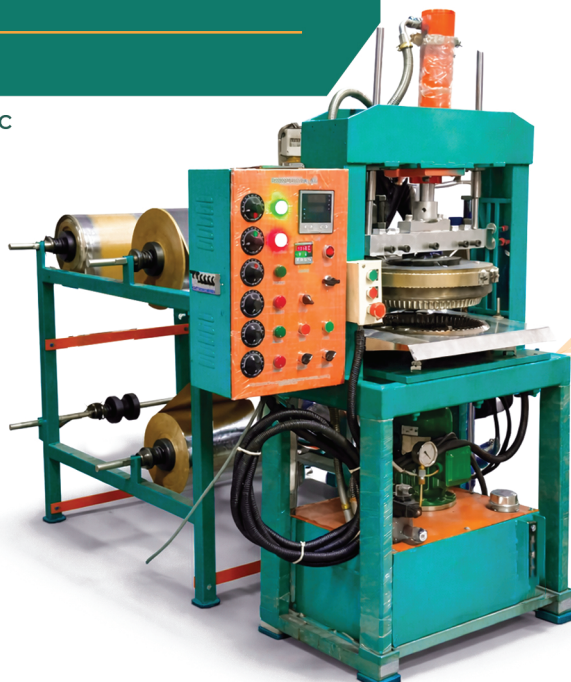

Weight:
300 kg

Triple Die Dona / Thali Machine

GT-D04

(Fully Automatic
Hydraulic)

Production :
3100 Dona / 1500 Thali / Hr

Electricity Consumption :
2 To 2.5 Units/Hr

Dimension :
6.8ft (L) x 2.9ft (W) x 5.5ft (H)

Weight:
400 kg

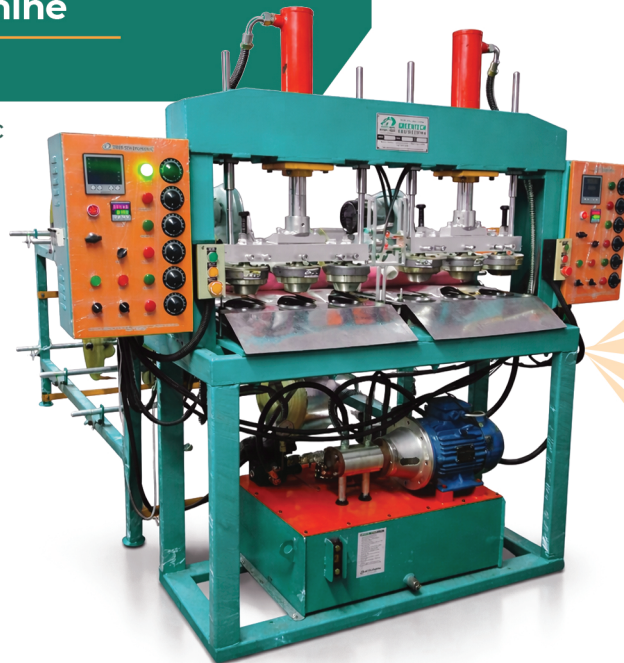

Paper Dona Making Machine

High Speed Paper Dona / Thali Machine

GT-P08

(Fully Automatic
Hydraulic)

Production :
6000 Dona / 2600 Thali / Hr

Electricity Consumption :
3 To 5 Units/Hr

Dimension :
9.5ft (L) x 6.5ft (W) x 6ft (H)

Weight:
800 kg

High Speed Paper Dona Making Machine

GT-P22

(Fully Automatic
Hydraulic)

Production :
4800 Dona / Hr
2800 Thali / Hr

Electricity Consumption :
3 To 3.5 Units / Hr

Dimension :
6ft (L) x 3.6ft (W) x 6ft (H)

Weight:
400 kg

Buffet Plate Making Machine

Double Die Buffet Plate Machine

GT-P09

(Automatic Hydraulic)

Production :
600pcs TO 800pcs/Hr

Electricity Consumption :
2 To 3 Units/Hr

Dimension :
4.6ft (L) x 2.0ft (W) x 5.4ft (H)

Weight:
400 kg

Buffet Plate Machine

GT-P20

(Fully Automatic Hydraulic)

Production :
1000-1200pcs/Hr

Electricity Consumption :
3.5 To 4 Units/Hr

Dimension :
4.2ft(L) x 3.3ft(W) x 5ft(H)

Weight:
400 kg

Buffet Plate Making Machine

Double Die Fully Automatic Buffet Plate Making Machine

GT-P24

(Fully Automatic Hydraulic)

- Production : 2000 pcs TO 2400 pcs/Hr
- Electricity Consumption : 5 To 6 Units/Hr
- Dimension : 5.5ft (L) x 4.4ft (W) x 5.7ft (H)
- Weight: 800 kg

High Speed Paper/ Buffet Plate Machine

GT-P25

(Fully Automatic Hydraulic)

- Production : 1500 pcs TO 1800 pcs/Hr
- Electricity Consumption : 3 To 4 Units/Hr
- Dimension : 5ft (L) x 3.5ft (W) x 5.6ft (H)
- Weight: 550 kg

Paper Plate Making Machine

Wrinkle Paper Plate Machine

GT-P07

(Fully Automatic Hydraulic)

Production :
2500 Wrinkle Plate pcs/Hr
1500 Dona, 2100 Thali

Electricity Consumption :
2 To 2.5 Units/Hr

Dimension :
8.6ft (L) x 3ft (W) x 5.5ft (H)

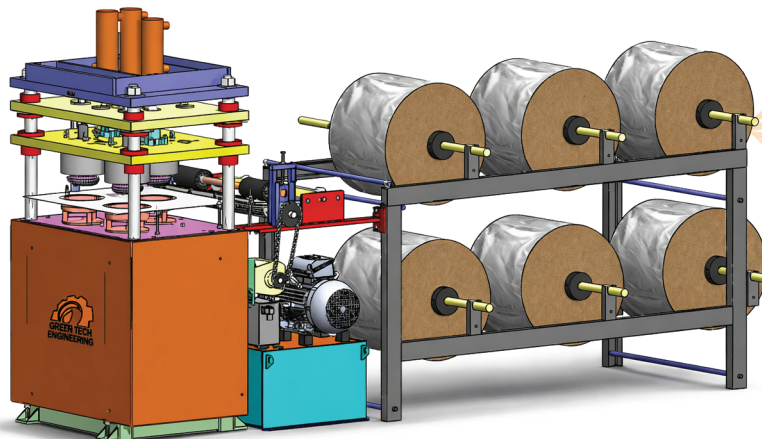

Weight:
450 kg

High Speed Paper Plate Machine

GT-P07 (3 DIES)

(Fully Automatic Hydraulic)

Production :
7,500 pcs TO 10,000 pcs/Hr

Electricity Consumption :
5 To 6 Units/Hr

Dimension :
11ft (L) x 5ft (W) x 6ft (H)

Weight :
1400 to 2600 kg

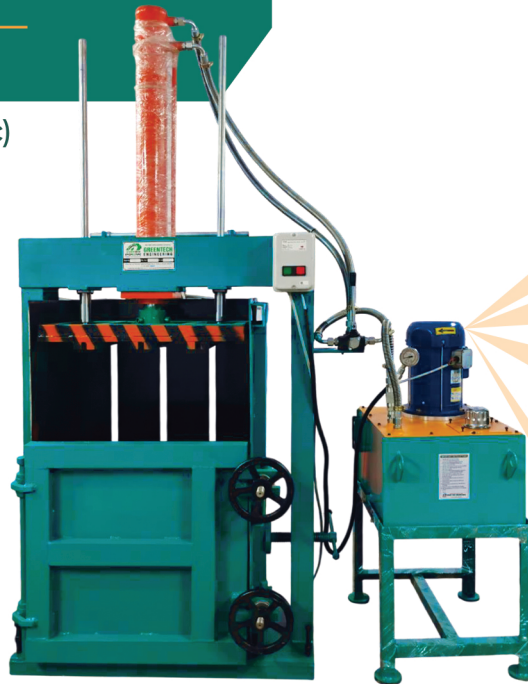

Hydraulic Press Machine

Baling Press

GT- BLPM

(Automatic Hydraulic)

Tonnage capacity :
10 to 50Ton

Bale Weight :
50 to 200kg (Paper)
30 to 150kg (Pet bottle)

Chamber Size :
27.5" x 15" x 45"
27.5" x 20" x 48"
30" x 26" x 45"
30" x 20" x 58"
34" x 26" x 60" & many more

Weight :
400 to 2000 kg

Foam Punching / Cutting Machine

GT-FC

(Automatic Hydraulic)

Tonnage capacity :
5 to 50 Ton

Platform Size :
500 x 500mm, 600 x 600mm
700 x 700mm, 800 x 800mm
& many more.

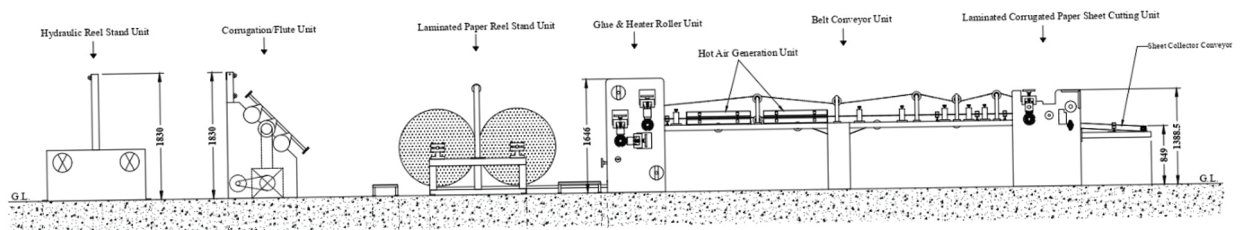

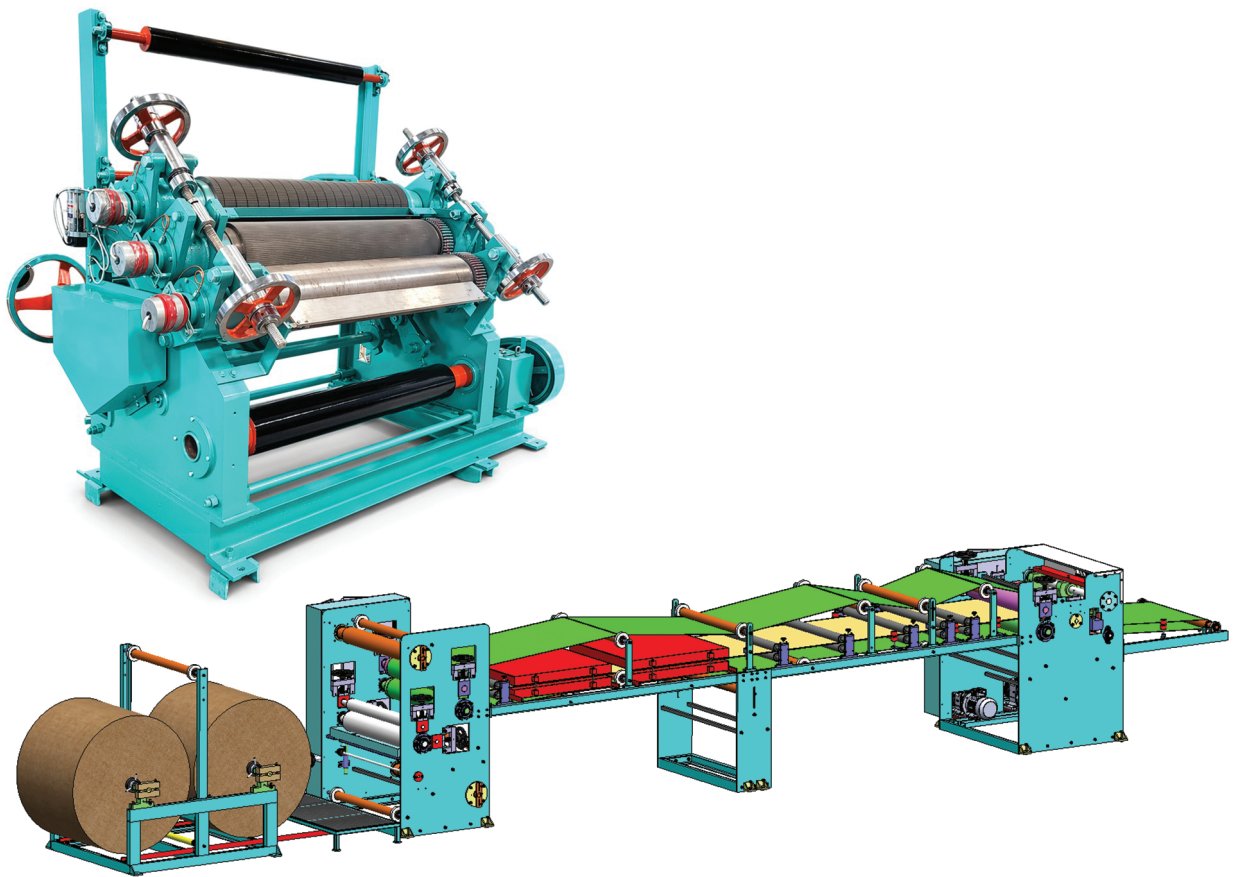

Application :
Packaging Industries,
metal embossing, Engineering
& many more

Weight :
700 to 2000 kg

Raw Material Making Machine

Online Corrugation Machine

GT-C32

Production :
8000pcs to 15000pcs/hr

Size :
32", 42", 56" & many more

Total Power Required :
35 to 55kw

Space Required :
60 to 80 Feet (Approx)

Raw Material Making Machine

Roll to Roll Paper Lamination Machine with Slitting

GT-L14, L15, L16

Size :
24", 34", 42", 45" & many more

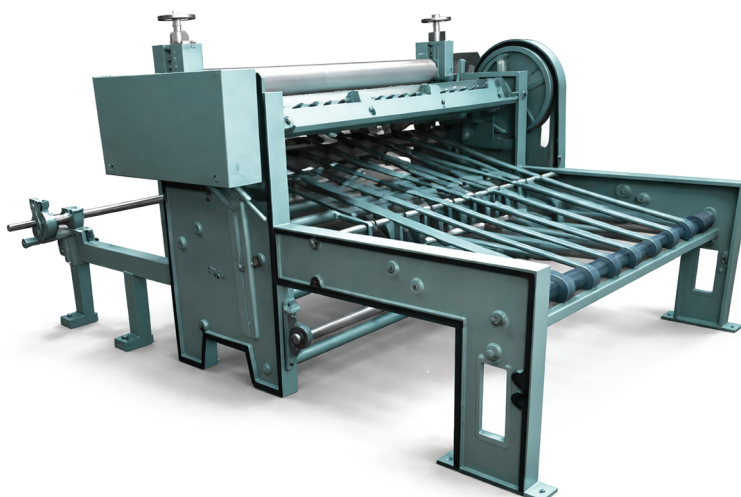

Production :
35 to 50 mtr/Minute
with Online Slitting

Motor :
3HP to 5HP

Weight :
650 to 1100 kg

Paper Roll to Sheet Cutting Machine

GT- S19

Size :
36", 45", 55", 65" & many more

Production :
3600-6500 sheets/hr

Cutting Length :
6" to 120" (Min/Max)

Electricity Consumption :
4 To 6 Units/Hr

Electricity Consumption :
800 to 2000 kg

Our USP

Complete Production
Setup Under One Roof

High-Speed Machines
with Consistent Output

Custom Built Machines
as Per Requirement

Live Machine
Demonstration Before
Purchase

Strong Build Quality for
Long Term Use

Easy Operation with
Low Maintenance

Fast Service & Spare
Parts Availability

Trusted by 1000+
Businesses

Easy Operation with
Low Maintenance

Our Clients

Disclaimer :

Specifications and design are subject
to change without prior notice.

Hydraulic oil is not included
with the machine.

Production depends on paper size,
GSM, and operating conditions.
